

Crossflo Systems, Inc. Announces Role in CMS Project

- Company working with IDL Solutions on MIDAS Project -

SAN DIEGO – December 10, 2012 – Crossflo Systems, Inc. (“Crossflo”) today announced that its Crossflo DataExchange® (CDX) technology has been chosen for use in the Multidimensional Insurance Data Analytics System (MIDAS) for the Center for Consumer Information and Insurance Oversight (CCIIO) of the Centers of Medicare & Medicaid Services (CMS) within the US Department of Health and Human Services (HHS). Crossflo is working with IDL Solutions, of Germantown, Wisconsin on the project.

“We are proud that Crossflo technology will be deployed as part of the MIDAS Project. We intend to pursue additional information sharing initiatives with Federal agencies where we believe our technology can play a significant role” said Dr. Makoto Nonaka, President and CEO of Crossflo.

Crossflo’s product line provides integrated data sharing, enhanced data interoperability and data integration that is built on standards, open-source industry components, and architected according to SOA principles, making the system future-proof. Reusable artifacts also support additional partners and information exchanges. More information on the CDX platform is available at www.crossflo.com

About Crossflo Systems, Inc.

Crossflo Systems, Inc. (“Crossflo”) provides products and solutions that enable secure data sharing. The company’s flagship product, the Crossflo DataExchange®, helps link data systems together and facilitates secure data sharing for any information exchange initiative in the healthcare, public safety and criminal justice markets. The solution has been designed to work directly with a number of national data sharing standards, including the NIEM (National Information Exchange Model) and the Global Justice XML Data Model (GJXDM). Crossflo has been working with some of the nation’s earliest and most innovative data exchange projects including one of the most advanced statewide data-sharing initiatives to be deployed in the United States. For more information on Crossflo, visit www.crossflo.com.
